eSolutions

MEDICARE **ENTERPRISE PACKAGE**

Everything a skilled nursing facility needs to optimize reimbursement.

Skilled nursing facilities face constant regulatory and economic challenges, all while trying to focus on quality care, maintaining staff and providing the best possible patient experience. SNFs turn to eSolutions for the most comprehensive billing expertise and powerful solutions in the industry. Solutions that help you navigate and overcome issues your busy billing and management staff face daily – consolidated billing, rejected claims, audits and underpayment of services.

If only your team had more hours in the day, those burdens associated with billing and reimbursement could be relieved. You can turn to eSolutions and our Medicare Enterprise package to **give your team back their valuable time and your business more revenue.** From verifying patient eligibility to evaluating claim data and even working claims in RTP, Enterprise has all the necessary tools to submit, edit and track your claims online, in real time.

Reporting and Analytics

Comprehensive Medicare Reporting and Analytics gives you greater insight into your billing process so you can spot and trend any issues that may negatively impact your billing and follow-up process. **SNF-specific reports and functionality** help you address adjudication problems and improve cash flow.

Claims Correction

Update your claims directly in the Medicare system using our web-based, UB-04 environment. Correct large numbers of claims in a shorter amount of time. Claims correction is available 24/7 so you're able to work when it's convenient.

Eligibility Verification

Retrieve eligibility verification in real time directly from the Medicare system. eSolutions provides you with a more comprehensive eligibility report than the traditional EDI system. Because we directly access this unique data set, you're able to correct data discrepancies such as misspelled names, incorrect HIC numbers and DOB on the spot.

Direct DDE Connection

Our DDE connection service provides a faster, more reliable connection to the DDE system across multiple locations. Connecting faster to the DDE means your staff processes more claims in less time.
