8215 W. 108th Terrace | Overland Park, KS 66210

Our **Multi-Payer Eligibility** solution is a comprehensive web-based eligibility verification tool.

**eSolutions' Multi-Payer Eligibility solution verifies eligibility for Medicaid and most major commercial payers. Verification can be done in real time with the our web interface. A batch process is also available with this solution.**

**EASILY SELECT INSURANCE PLANS AND SUBMIT PATIENTS FOR VERIFICATION**

Stop wasting valuable time and money submitting claims that a patient's insurance won't cover. Now you can know from the start exactly what can be billed.

**CHECK ELIGIBILITY THROUGH A CONVENIENT ONLINE INTERFACE**

Integrate all of your payers into one convenient location.

**VERIFY NEARLY ALL NON-MEDICARE INSURANCE PLANS**

Submit non-Medicare patients for eligibility verification and get results in about 30 seconds. All information is available in a report you can print, email or save to the patient file.

**INCREASE STAFF EFFICIENCY**

When you verify eligibility up front, your staff spends less time dealing with rejected and denied claims and can concentrate their efforts on more important matters.

**INCREASE CASH FLOW**

Submitting fewer claims that will be denied or rejected results in a higher monthly cash flow for your organization.

Medicare Primary	<i>Message: MANIPULATIONS</i>		

The report provides you with all the vital patient information you need.

# How is **eSolutions** different from your current multi-payer eligibility verification process?

## Choose the reporting option that best meets your needs:

### Real Time

Submit patient data with our easy-to-use web interface for real-time results.

### Batch

Process daily, weekly or monthly batches at no added cost.

## How do I get results?

Our solution creates a comprehensive Coverage Detail Report, allowing you to easily and accurately verify patient data through a real-time or batch process.

## Will eSolutions' Multi-Payer Eligibility work for my facility?

eSolutions' multi-payer eligibility solution is currently utilized by thousands of facilities including:

- Hospitals
- Home health
- Hospice
- Skilled Nursing
- Physician practices
- DME Providers
- Dialysis units

All major payers are supported. Discover the advantages of eSolutions with a **risk-free trial** today.

## How does it work?

Verifying patient insurance eligibility is a critical step in the revenue cycle. Using our Multi-Payer Eligibility solution lets you verify patient information and coverage quickly and easily.

Our tool is able to identify:

### Coverage Information

- Beneficiary and subscriber verification
- Eligibility and benefits
- Coverage type
- Deductible data
- Provider/service specific coverage information

Providers can log in to our HIPAA-compliant website and submit patient information for eligibility verification. The coverage information available for non-Medicare payers varies from payer to payer.

## What's the advantage?

Utilizing the multi-payer eligibility service will greatly reduce time spent on patients without coverage, non-covered services, unallowable services, expired coverage limits and data discrepancies. This effectively reduces denied claims and line items while improving cash collections. eSolutions helps automate your efforts to stay on top of changes in coverage.

## What are the requirements?

Your specific computer hardware and type of Internet connection play a significant role in how fast or slow your web application works. This solution can be used on virtually any system, regardless of the type of Internet connection you have.

## How much does it cost?

Our multi-payer eligibility solution is completely web-based service that is billed on a flat monthly rate. eSolutions establishes the rate based on the size of your organization, making our solutions cost-effective for all providers. Contact eSolutions for a cost-of-service estimate for your facility.

## Need more information?
